

project proposal

**Final year project:
title:**

creating payment receipt

**Prepared by:
“Noor khan”**

**Prepared for:
“Aaqib rajpoot”**

07:02:2025:

features:

1. Subscription table: A Table is creates to display the subscription data with columns for date, Name, subscription type, and price(RS.).
2. Style customization: The table is styled with:
 - . Background color for header: The header row is highlighted with a gray background to differentiate it from the data row:
 - . Grid or box border: To make it look neat and structured :
 - . Text Alignment: All table content is centrally aligned

Proposed Enhancements:

- . Footer section: Include footer information like contact details, website or terms and conditions.
- . Multiline content: . if the description(for subscription name or terms) is long enable it to warp into text line instead of going out of the tables boundary.

Template ideas:

- . logo template: Place a company logo on the top left or right of the document.
- . Adjust the title alignment accordingly.
- . Date and time template: Add a current date and time stamp at the top or bottom to mark when the receipt was generated.

Barcode or QR code template:

- . For modern receipt, consider add or QR code or Barcode linked to the order or subscription for easy access or tracking.**

Tools we use:

1 IDE (Integrated Development Environment).

- . PyCharm,**
- . VS code(visual studio),**
- . Jupyter Notebook.**

2. Python libraries:

- . ReportLab,**
- . pandas,**
- . NumPy, etc.....**

summary:

This python receipt generates a PDF receipt using the (reportlab) library. It creates a table displaying subscription details such as date, name, subscription type, and price, along with subtotal, discount, and total amounts. The table is styled with borders, gridlines, and customized background colors for the header and rows. The title "Creating payment receipt" is centered on the page, and the entire content is laid out on an A4-sized page. The PDF is saved as "receipt.pdf" after compiling all the elements together

**THANKYOU FOR
YOUR INTEREST
EVERYONE:**
